

Poles

Contestant may start either to the right or left of the poles then run the remainder of the pattern accordingly. Knocked over poles will be a 5 second penalty per pole; with the exception of the jackpot knocked over poles will be considered a no time. A broken pattern shall be defined as breaking in forward motion to retrace their tracks to finish the pattern and or passing the plane of the pole on the off side. Example should a contestant run by a pole and have to backup or turn around and retrace the tracks this would be considered a broken pattern. Also if a pole is knocked down and the contestant does not follow the weave pattern around the original base position of the fallen pole it is considered a broken pattern. First pole is 21 feet off the timer line and each pole is 21 feet.
